

KELSY

MWENI

ICT Specialist/ Graphics Designer

About Me

I am a passionate ICT Professional with strong skills in web development (Front-End Developer), IT support, basic networking, and graphics designing. I enjoy building modern, responsive websites and creating visually appealing designs that communicate ideas effectively. With hands-on experience in HTML, CSS, and basic JavaScript, I am continuously learning and improving my technical skills. My background in graphic design allows me to combine creativity with technology to produce high-quality digital solutions.

I am highly motivated, adaptable, and committed to delivering reliable and efficient results in both technical support and digital design environments.

Skills:

Technical Skills

- Knowledge of computer hardware and software systems.
- Familiarity with Windows and Linux operating systems.
- Basic networking knowledge (LAN/WAN setup).
- Understanding of office software (MS Office, Google Workspace).
- Basic knowledge of web development (Front-End developer)
- Graphics Designing

Soft Skills

- Problem-solving and analytical thinking.
- Teamwork and adaptability.
- Good communication and documentation skills.
- Eagerness to learn and follow instructions.
- Time management and organization.
